SUMMARY

Experienced Flutter developer with 2 years of expertise in developing robust mobile applications for Android, iOS, and web platforms. Proficient in delivering high-performance applications to clients, ensuring exceptional user experiences and efficient functionality. Expertise includes state management, Firebase integration, and UI/UX design principles. Strong collaborator with cross-functional teams, consistently meeting project deadlines.

TECHNICAL SKILLS

Programming Languages: Dart, JavaScript, HTML, CSS

Mobile Frameworks: Flutter (Android, Web)

Design Patterns: MVC, MVVM

State Management: GetX, Provider

Cloud: Firebase, Google Cloud Console

Tools: Postman, Docker, Figma

Version Control: GitHub, Git, Bitbucket

Soft Skills: Self-Motivation, Adaptability, Communication

Others: RESTful API, Third party package, Payment gateway

PROJECTS

Hungerline

Android, iOS

Google Maps, Provider, Firebase, Analytics

- Created a feature-rich food delivery mobile application for a Bahrain client using Flutter, targeting both Android and iOS platforms.
- Established secure payment gateways, enabling users to pay for their orders.
- Introduced real-time order tracking, providing users with accurate delivery status updates, resulting in a 20% decrease in customer support inquiries.
- Utilized Google Maps API for enhanced user experience with accurate location services and navigation, improving delivery efficiency by 25%.
- Integrated push notifications for order updates and promotional offers, boosting user retention by 35%.
- Applied efficient coding practices, reducing codebase size by 20% and improving maintainability.
- Designed and built an intuitive user interface, increasing user engagement and satisfaction by 30%.

Dhaamiye - Fuel Gateway

Android, iOS

Flutter, Firebase, Google Maps, GetX

- Conceived a comprehensive user interface (UI) that caters to both urban and rural users, ensuring accessibility and ease of use.
- Increased user engagement by 75% through intuitive UI/UX design and seamless user experience.
- Enhanced app performance, resulting in a 40% reduction in load times and a 25% increase in app stability.
- Achieved a 98% customer satisfaction rate based on user feedback and Play Store reviews.

Salesspark

Android, iOS

Flutter, Firebase, ERPNext API

Launched a comprehensive sales mobile application using Flutter, integrated with ERPNext API to manage and update sales and stock data in real-time.

Collaborated with the backend team to optimize data queries and improve the performance of the API endpoints.

Formulated custom modules to handle specific business processes, such as order management, invoice generation, and stock replenishment.

Managed to reduce the app crash rate by 50% through rigorous testing and continuous performance monitoring.

Medchoice - Hospital App

Web

Flutter, Firebase, GoRouter, GetX

Engineered a cross-platform web application for managing nurse schedules using Flutter, accessible via web browsers.

Utilized GoRouter for seamless URL-based navigation, enhancing user experience and accessibility.

Formulated a responsive UI for optimal usability across devices, improving user satisfaction.

Empowered nurses with features for viewing and booking shifts conveniently.

EXPERIENCE

Flutter Developer

Sigosoft

September 2022 - Present

Kozhikode, Kerala

Troubleshoot and debugged complex issues within Flutter applications, optimizing performance and user experience.

Collaborated with designers and backend developers to ensure seamless integration of UI/UX designs.

Authored well-structured, maintainable Flutter code adhering to software development best practices.

Mobile App Developer

Freelancing

June 2022 - August 2022

Kerala

Collaborated with project teams to achieve project objectives through clean and maintainable code.

Resolved issues and improved application functionality through effective troubleshooting and debugging.

EDUCATION

University of Calicut

Bachelor of Computer Application

2019 - 2022

IHRD

Higher Secondary Education

2016 - 2018
